14. Frequently Asked Questions (FAQs)

How do I track my order?

Once your order is dispatched, you will receive an SMS and email with a tracking number. You can track your order in real-time via the ShopEase app under My Orders > Track Package, or directly on the courier's website.

What do I do if my item arrives damaged?

Do not discard the packaging. Take clear photos of the damaged item and packaging, then submit a Return/Refund request within 48 hours of delivery via My Orders. Select 'Item Damaged' as the reason and upload your photos. Approved claims receive a full refund or replacement at no extra cost.

Can I change my delivery address after placing an order?

Address changes are only possible before the order is packed. Go to My Orders > Order Details > Edit Address. If the order is already packed or shipped, contact our live chat support immediately. Additional charges may apply for rerouting.

How do I apply a voucher code?

At checkout, click 'Apply Voucher / Promo Code' and enter your code. Valid vouchers will be applied automatically to the eligible items. Only one voucher code can be used per order, but it can be combined with ShopEase Coins.

Is my payment information secure?

Yes. ShopEase uses PCI-DSS Level 1 compliant payment infrastructure. We never store your full card number. All transactions are encrypted using 256-bit SSL. We also support two-factor authentication (2FA) for account security.

What is ShopEase Buyer Protection?

ShopEase Buyer Protection guarantees a full refund if: your order never arrives, the item is significantly different from the listing, or the item is counterfeit. Protection is automatically active on all orders and you can open a claim within 15 days of the estimated delivery date.

How long does it take to process a return?

Once we receive your returned item, inspection takes 1–2 business days. Refunds are processed immediately upon approval. Depending on your payment method, refunds reflect in 24 hours (ShopEase Wallet) to 10 business days (bank card).

Can I return an international order?

Yes. For cross-border orders, submit your return request via the app. A prepaid international return label will be emailed to you. International returns may take 7–14 business days to reach our warehouse. Customs duties paid on original delivery are non-refundable.

How do I become a seller on ShopEase?

Visit seller.shopease.com and click 'Register as Seller'. Complete the KYC process, upload required documents, and set up your store. Onboarding typically takes 2–3 business days. Our Seller Success team will guide you through your first 30 days.

What happens if the seller does not respond to my return request?

Sellers must respond to return requests within 2 business days. If they do not respond, ShopEase will auto-approve your return and process the refund on behalf of the seller. The seller's account is penalised under the Seller Performance Policy.

Does ShopEase offer price matching?

ShopEase does not offer a formal price-match guarantee. However, our Price Alert feature lets you set a target price for any item and notifies you when it drops to that level. During our ShopEase Sale events, prices are often at their lowest.

How do I delete my ShopEase account?

Go to Account Settings > Privacy > Delete My Account. All personal data will be erased within 30 days, except records legally required to be retained (e.g., transaction records for tax purposes). Outstanding orders, disputes, or balances must be resolved before deletion.
